| Income from Operations* | 4.6\% | 6.3\% |
| Earnings Per Diluted Share | \$ 0.31 | \$ 0.38 |

URBN sales for the first quarter grew by $1 \%$ to $\$ 864$ million. Sales growth was driven by a Retail segment comp of $1 \%$, a Wholesale segment growth of $2 \%$ and non-comp sales of $\$ 2$ million. Foreign currency translation negatively impacted sales by $\sim 70$ basis points for the quarter.

Free People delivered the strongest Retail segment comp for the quarter, up $2 \%$, followed by the Anthropologie Group which was up 1\%, and Urban Outfitters which was flat for the quarter. Each of our brands was up against a very strong Retail segment comp from the prior year. Given that and challenging February weather, store traffic and sales to start the quarter, we are pleased to see each of our brands deliver positive to flat comps for the quarter.

Gross Profit dollars decreased by $4 \%$ to $\$ 269$ million for the quarter, while gross profit rate declined 167 basis points to $31.1 \%$. The decline in gross profit rate and dollars were due to higher markdowns and deleverage in delivery and logistics expenses. The higher markdowns were largely driven by underperforming women's apparel at the Anthropologie and Urban Outfitters brands. The deleverage in delivery and logistics expenses is primarily due to the increase in penetration of the digital channel. The benefit or leverage in store occupancy due to the increased penetration of the digital channel was more than offset by negative store comps resulting in store occupancy deleverage on a Retail segment basis.

Selling General \& Administrative ('SG\&A') expenses grew by $1 \%$ while SG\&A as a $\%$ of sales was flat at $26.5 \%$. The growth in SG\&A partially related to increased marketing expenses used to help drive the digital channel sales growth.

Operating Income for the quarter decreased by $26 \%$ to $\$ 40$ million with operating profit margin declining by 167 basis points to $4.6 \%$.

Net Income for the quarter was $\$ 33$ million or $\$ 0.31$ per diluted share.

| Free People | 78.5 | 77.9 | 0.6 | 1\% |
| Urban Outfitters | 1.1 | - | 1.1 | n/a |

Total Company or URBN sales for the quarter increased $1 \%$ to $\$ 864$ million. The increase in sales was driven by a $1 \%$ URBN Retail segment comp increase, a $2 \%$ growth in URBN Wholesale segment sales and a $\$ 2$ million increase in non-comp sales. Foreign currency translation negatively impacted sales by ~70 basis points for the quarter.

URBN Retail segment comps increased by $1 \%$ driven by a double-digit increase in digital channel sales which was partially offset by mid-single digit negative store channel comps. Retail segment comps were the strongest in April, followed by March with February being our only negative comp month during the quarter. Please note that we do believe April benefited from the Easter shift into the month of April this year.

Our Retail segment comp was up 1\% in North America while it was negative in Europe. Europe is challenging due to a difficult macro environment resulting in negative store traffic.

URBN Wholesale segment sales increased 2\% driven by a $1 \%$ sales increase in Free People wholesale sales and $\$ 1$ million in Urban Outfitters BDG wholesale sales. Anthropologie Home saw a 3\% decrease in wholesale sales during the period.

Total Anthropologie Group Brand sales increased by $2 \%$ to $\$ 355$ million driven by a Retail segment comp of $1 \%$ and a Retail segment non-comp sales increase of \$4 million, which more than offset the $3 \%$ decline in their Wholesale segment sales.

The Retail segment sales comp was driven by double-digit digital growth, while store comps were mid-single digit negative. By product category, Women's Accessories, Home and Beauty were all positive for the quarter, while Women's Apparel, BHLDN and Terrain were negative for the quarter.

By geography, Retail segment comp sales were positive in North America which more than offset negative comp sales in Europe.

Wholesale segment sales declined by $3 \%$ for the quarter due to a decline in Europe. Wholesale segment sales were up $2 \%$ in North America.

Total Free People brand sales increased by 3\% to $\$ 186$ million driven by a Retail segment comp of $2 \%$, a Wholesale segment growth of $1 \%$ and noncomp sales of $\$ 2$ million.

The Retail segment comp was driven by digital growth while stores were low single-digit negative. By product category, Apparel, Intimates, Movement and Beauty were all positive for the quarter while Women's Accessories declined.

Wholesale segment sales grew by $1 \%$ to $\$ 79$ million as a result of higher sales to full priced customers partially offset by lower sales to off-price and closeout channels. North America sales were positive while international sales were negative for the quarter.

Total Urban Outfitters brand sales decreased by 2\% as a result of negative non-comp sales of $\$ 7$ million, while the Retail segment comp was flat for the quarter and Wholesale segment sales of the UO BDG brand delivered $\$ 1$ million of sales growth. Negative noncomp sales for the quarter primarily related to adjustments for foreign currency translation with the remainder resulting from store closures.

Retail segment comp sales were flat for the quarter with double-digit sales growth in the digital channel being offset by high single-digit negative store sales. By product category, Home, Women's Accessories and Beauty were positive for the quarter while Women's Apparel and Men's Apparel were negative. Retail segment comp in North America was positive for the quarter but was offset by a negative Retail segment comp in Europe.

Wholesale segment sales of the Urban Outfitters BDG brand delivered $\$ 1$ million in sales for the quarter which came from customers in both North America and Europe.

[^0]Total company gross profit decreased $4 \%$ to $\$ 269$ million, while the gross profit rate declined by 167 basis points to $31.1 \%$. The decline in the total company gross profit rate was driven by lower gross profit in the Retail segment while gross profit in the Wholesale segment improved in the quarter.

Retail segment gross profit decreased 5\% to $\$ 245$ million while the Retail segment gross profit rate declined by 193 basis points to $31.3 \%$ for the quarter.

The decline in Retail segment gross profit rate was driven by higher markdowns and deleverage in delivery and logistics expenses. Higher markdowns were largely driven by a higher percentage of underperforming women's apparel at the Anthropologie and Urban Outfitters brands. The deleverage in delivery and logistics expenses was primarily due to the increase in penetration of the digital channel. The benefit or leverage in store occupancy due to the increased penetration of the digital channel was more than offset by negative store comps resulting in store occupancy deleverage on a Retail segment basis.

Wholesale segment gross profit increased by $8 \%$ to $\$ 25$ million while Wholesale segment gross profit rate increased 171 basis points to $30.1 \%$. The improvement in Wholesale segment gross profit rate for the quarter was due to a higher penetration of sales to full price customers versus closeout customers.

| SG\&A* \% | 26.5\% | 26.5\% |  |  |  |

Total company SG\&A increased $1 \%$ to $\$ 229$ million. Total company SG\&A as a percentage of sales was flat at $26.5 \%$. The growth in SG\&A expenses was partially due to increased marketing expenses which were used to support our digital channel sales growth. The reduction in SG\&A versus our original plans is largely due to lower incentivebased compensation expense and lower variable store payroll dollars as a result of lower sales results.

Inventory increased 1\% to $\$ 408$ million, largely driven by a $1 \%$ increase in Retail Segment comp inventory.

As of April 30, 2019, cash and marketable securities totaled \$614 million with zero drawn down on the asset backed line of credit facility.

We adopted an accounting standards update on February 1, 2019 related to lease accounting that resulted in the recognition of lease liabilities and right-of-use assets on the balance sheet. Right-of-use assets were reduced by the previously recognized deferred rent balances at adoption.
