| Earnings Per Diluted Share | $\$ 0.78$ | $\$ 0.56$ |

URBN sales for the third quarter declined by $2 \%$ to $\$ 970$ million. The decrease in sales was due to a $24 \%$ decline in Wholesale segment sales, while Retail segment sales were flat. Retail segment sales comp was also flat.

Gross profit dollars increased by $1 \%$ to $\$ 323$ million for the quarter, while gross profit rate increased 79 bps to $33.3 \%$. The increase in gross profit rate was due in part to record low merchandise markdowns in the Retail segment. The record low Retail segment markdown rate was driven by improvement at all three brands with the Urban Outfitters and Free People brands recording significant improvement. The Wholesale segment also delivered healthy improvement in merchandise margins due to lower discounts and allowances. Additionally, gross profit improved as a result of the benefits associated with negotiated rent concessions with landlords and European government assistance programs. These were partially offset by an increase in delivery and logistics expense primarily due to the penetration of the digital channel.

Selling general \& administrative ('SG\&A') expenses decreased by $9 \%$ to $\$ 224$ million while SG\&A as a \% of sales leveraged by 175 bps to $23.1 \%$. The leverage in SG\&A as a rate to sales was primarily related to disciplined store payroll management and overall expense control. Digital marketing expenses grew during the quarter to support the strong digital sales and customer growth.

Operating income dollars increased by $31 \%$ to $\$ 99$ million while operating income rate improved by 254 bps to $10.2 \%$. The increase in dollars was due to the SG\&A leverage and improvement in gross profit rate in the quarter.

Net Income for the quarter was $\$ 77$ million or $\$ 0.78$ per diluted share, a new Q3 EPS record.
